

Technical Report #158

**A Modeling of Freshwater Resources
For Selected Atolls of Yap State, FSM**

By Beikmann, A., Bailey, R., Jenson, J., Kottermair, M., Taboroši, D., Bendixson, V.,
Flowers, M., Jalandoni, A., Miklavič, B., and Whitman, W

Table of Contents

I. Overview

[Cover Page](#)
[Executive Summary](#)
Table of Contents

II. Results & Observations

1. Literature Review

2. Full Report

Acknowledgements
Introduction
Area of study
Objectives
Climate
Precipitation
Sea Level
Typhoons
Climate Change
Hydrology
Demographics and Water Demands
Rainwater collection and storage
Overview of Methods
Rainwater Catchment Systems of Ifalik
Design Curves for Rainwater Catchment System Design
Groundwater collection and storage
Algebraic Model
Numerical Model (SEAWAT)
Steady-state models
Future Climate Models
Discussion
Conclusions
References
